SUMMARY

Data Engineer and Software Engineering professional with 2+ years of experience supporting data engineering, software development, and data-driven decision-making. Master's in Software Engineering from Carleton University with a strong foundation in SQL, Python, ETL pipelines, AWS cloud services, REST APIs, relational databases, and Docker. Skilled in data ingestion, data validation, data modeling, Agile methodologies, SDLC, and cloud-based data solutions. Completed the Amazon Career Choice Data Analytics Program through Correlation One and AWS Data Engineering training.

SKILLS

- * Data Engineering & Cloud: ETL Pipelines, Data Ingestion, Data Modeling, PySpark, AWS Glue, Amazon S3, Amazon Athena, AWS Step Functions, Docker
- * Programming: SQL, Python, Java, R, REST APIs, JSON, CSV
- * Databases: PostgreSQL, MySQL, MongoDB, Relational Databases
- * Data Analytics & Business Intelligence: Advanced Excel, Tableau, Power BI, Dashboard Development, KPI Reporting, Data Visualization, Data Validation, Data Cleaning, Reporting Automation
- * Software Development & DevOps: Git, GitHub, SDLC, Agile Methodology
- * Business & Collaboration: Requirements Gathering, Stakeholder Collaboration, Business Process Improvement, Process Mapping, Gap Analysis, Root Cause Analysis

EXPERIENCE

Amazon Fulfillment Associate I | Sept 2023 - Present

Ottawa, Ontario, Canada

- * Analyzed inventory and operational data to identify process inefficiencies, perform root cause analysis, and improve inventory accuracy, operational performance, and process efficiency.
- * Collaborated with cross-functional teams to resolve data and operational issues, maintain data integrity, and support continuous process improvement in a high-volume environment.

Infividhya - Data Analyst Intern | Aug 2023 - Oct 2023

Ahmedabad, Gujarat, India (Remote)

- * Developed and implemented ETL pipelines using SQL, Python, REST APIs, and JSON/CSV to automate data ingestion, transformation, and validation, improving reporting accuracy from 88% to 97%.
- * Performed data validation, workflow troubleshooting, and root cause analysis to reduce reporting errors by 15% while improving data quality and reporting automation.

Axisray - Software Developer Intern | Jan 2023 - May 2023

Ahmedabad, Gujarat, India

- * Developed and optimized SQL queries for relational databases, improving reporting accuracy by 13%, reducing data inconsistencies, and supporting efficient data retrieval.
- * Collaborated throughout the SDLC using Agile practices to troubleshoot backend applications, integrate REST APIs, and improve application performance.

PROJECTS

Business Intelligence & Data Analytics Dashboard | Jan 2026 - Jun 2026

Amazon Career Choice Data Analytics Program - Correlation One

- * Analyzed 250,000+ salary records using SQL, Python (Pandas), and Excel to perform data cleaning, validation, exploratory data analysis (EDA), and identify workforce compensation trends.
- * Developed ETL workflows to prepare, transform, and validate datasets for reporting, improving data quality, and supporting reliable business insights.
- * Developed interactive Tableau dashboards and KPI reports to visualize workforce trends and support data-driven decision-making.

EDUCATION

- * Amazon Career Choice - Correlation One Data Analytics Program | 2026
- * Master of Software Engineering, Carleton University | Sep 2023 - May 2025
- * Bachelor of Computer Engineering, Gujarat Technological University | Jul 2019 - Jun 2023

CERTIFICATIONS

- * AWS Skill Builder - Data Engineering Learning Plan: Data Engineering Foundations, Data Lake Solution, Data Warehouse Solution, Batch Data Pipeline Solution | 2026
